Connecting sea to shore

BW LNG

Office attachment | Dec 2023 - Mar 2024

Mark Sherwin
Electro Tech Officer

This was a once-in-a-lifetime opportunity for me to work onshore! It was eye-opening for me to experience life in the office, and I'm thankful for our welcoming and inclusive environment. I was happy to share my practical knowledge of drydocking, while gaining useful knowledge from our office colleagues to take back to the crew.

BW LNG

Office attachment | January - April 2024

Manish Upadhay
Chief Officer Jr

After sailing with BW for 14 years, I was excited to embark on the office attachment in Oslo. I thoroughly enjoyed the exposure to diverse perspectives and strong team spirit. I appreciate our work culture where speaking up and asking questions is encouraged and valued. It was wonderful to work alongside fellow colleagues, and visit Oslo for the first time!

BW LNG

A career transition from sea to shore

Jelyn Rama
Crew Hiring Officer

As a former BW LNG seafarer, I am delighted for the shore-based opportunity as a Crew Hiring Officer at BW Shipping Philippines Inc in Manila. I am glad to contribute to BW in a new area of the business. My seafaring experience helps me understand and support crew needs, motivating me to become even better at my job!
